PLEASE SUPPORT OUR PRJECTS

MEDICAL CARE

Kid get sick and injured. This is a serious problem if it happens in a remote area and the adults do not understand when care is required or resources for the child to get needed care, including surgery. We partner with existing health services to assist.

Education

Sponsor a child's education for \$50/mo. gives school supplies and hope. Each month, you'll receive your child's story, photo, and thanks. Together, we can give them a brighter future.

Caring Elders

Many village elders are alone. They ask for blankets, food, and medicine. Giving \$50/month or \$10 a blanket, gives comfort, dignity, and a better life. We send photos to you showing their thanks!

Remote Village

Disabled

Many disabled need medical help, a wheelchair or transport to hospital care. \$100 gives them a much better life
